Rx 360, is a community education workshop which aims at educating parents, and caregivers that help to discuss the important role for parents and caregivers in preventing prescription drug abuse.

Throughout the two-hour, one-day presentation, important topics are discussed such as:

- Reasons why individuals are misusing prescription drugs,
- Communication with family/friends
- How to safeguard your medications
- How to spot medicine abuse
- Proper disposal methods

For questions on this training, please contact:
