PARENTS COMMISSION MEETING PRESENTATIONS

Arizona High-Intensity Drug Trafficking Areas
Mr. Al Laurita, Investigative Support Center Manager
Ms. Shelly Mowry, Demand Reduction Coordinator

Chairperson Beagley welcomed and introduced **Mr. Al Laurita, Investigative Support Center Manager** and **Ms. Shelly Mowry, Demand Reduction Coordinator** to the meeting. **Mr. Laurita and Ms. Mowry** thanked the Commission for the opportunity to present. **Mr. Laurita and Ms. Mowry** shared a detailed overview of the 2021 Drug Threats in Arizona.

Mr. Laurita reviewed the top 5 substances identified as drug threats in Arizona according to data collected for 2020 and 2021: #1 Fentanyl, #2 Methamphetamine, #3 Cocaine, #4 Heroin, #5 Marijuana/THC. **Mr. Laurita** also reviewed the 2021 drug threats on the Southwest borders of the U.S., comparing border state percentages by specific substances, according to the National Seizure System. **Mr. Laurita** projects that in 2022, the number of fentanyl pills seized will be higher than in previous years. **Mr. Laurita** identified spikes in drug usage with specific substances in Arizona. **Mr. Laurita** shared that some social media outlets facilitate the sale and solicitation of drugs. **Mr. Laurita** highlighted that from April 2020 to April 2021 there has been a 28.5% increase in opioid overdose deaths nationally.

Chairperson Beagley thanked **Mr. Laurita** for his presentation and asked the commission if they had any questions.

- **Commissioner Robinson** asked **Mr. Laurita** if the increase in drug seizures were due to an increase in resources committed to the seizures at the border. **Mr. Laurita** stated that

the highest rate of drug seizures was in Phoenix, Arizona and not at the southern border and the number of allocated resources has not had an impact on where the seizures are taking place.

- **Chairperson Beagley** shared that individuals will “create a line in the sand” regarding the types of drugs they will experiment with and many will move the “line” to experiment with other substances. **Chairperson Beagley** stated that it takes a village to work together to prevent substance use. **Mr. Laurita** stated that Fentanyl continues to be the #1 substance increasing in usage. **Mr. Laurita** agreed that the only way to make substance use issues better is to work together.

Chairperson Beagley welcomed **Ms. Mowrey** to share her presentation with the commission:

- **Ms. Mowrey** shared detailed information about “The Rise in Fentanyl” campaign and accompanying toolkit created by Substance Abuse Coalition Leaders of America with the commission.
- **Ms. Mowrey** urged the Parents Commission to consider utilizing the Fentanyl Toolkit in lieu of the AZ Rx Toolkit because Fentanyl usage is the highest in the state and continuing to rise.
- **Ms. Mowrey** shared elements of the campaign that include
 - Personal video testimonies from families that lost a loved one to fentanyl overdose.
 - Education and awareness handouts
 - Naloxone information and Good Samaritan Law information
 - Media materials: PSA’s, Posters, and social media creative
 - Community engagement takeaways: Fact sheets, talk tips, and postcards
- **Ms. Mowrey** shared the Arizona Pediatric Fatality Review for 2020 that included there were 57 fentanyl related deaths for children 0-17. **Ms. Mowrey** compared that to the statistic that there were 12 children 0-17 who died from COVID-19 in 2020.
- **Ms. Mowrey** stated that the campaign has contributed to a decrease in fatal and non-fatal overdose deaths in the targeted zip codes of the campaign. **Ms. Mowrey** reported that when the campaign is on hiatus there is a correlation between the rise in reported overdoses in those areas.
- **Ms. Mowrey** shared that they will be expanding the outreach to include Sibling to Sibling campaigns focused on getting youth involved to lead conversations with their siblings.

Chairperson Beagley thanked **Ms. Mowrey** for her presentation and asked the commission if they had any questions.

- **Commission Klinkner** asked of the 0-17 deaths did the children know they were taking fentanyl or did they think they were taking something else. **Ms. Mowrey** stated that information has not been determined specifically, but that it was reported that some purchased off the internet and thought they were getting “Oxy” and it was laced with fentanyl. **Commission Klinkner** asked if wea cheaper to manufacture fentanyl. **Ms. Mowrey** stated that it is very cheap to manufacture with a high return on investment. **Ms. Mowrey** stated that there are some “fentanyl pill seekers” but that most individuals think that they are purchasing some other substance.
- **Commission Robinson** asked if the youth led information sharing was being implemented in the juvenile justice system. **Ms. Mowrey** stated that it has been implemented in a few counties successfully and they are continuing to work with additional juvenile justice systems in other counties.
