I. Title II Program Update notMYkid

- **Ms. Nannetti, Chair**, welcomed **Sarah Grado**, Chief Program Officer, who has worked in adolescent behavioral health with notMYkid for over 13 years. As the Chief Program Officer, Sarah oversees notMYkid's full continuum of care while providing a vision for sustainable growth. Sarah is also an international speaker who shares her story of recovery to youth, parents, and professionals.
- **Ms. Nannetti, Chair**, also introduced **Wendy Gustafson**, Regional Program Manager at notMYkid since 2021 and brings 26 years of grant experience. As the Regional Program Manager, Wendy provides support for projects in Mohave County by serving as a community development expert. She works directly with community groups to ensure a successful implementation of the notMYkid's full continuum of care.
- **Sarah** began the presentation discussing the notMYkid program, Serving Youth, Families, and Communities. Their mission is to ensure every kid thrives by inspiring positive life choices. **Sarah** stated that teens are turning to substance use and suicidal ideations to deal with the mental pressure from life. She said that only about 20% of children with mental, emotional, or behavioral disorders receive care from a specialized mental health care provider. **Sarah** continued her presentation by giving an overview of teen statistics. She stated that in Arizona, 1 out of 10 high-school students have attempted suicide. **Wendy and Sarah** then went on to give an overview of the programs they offer in order to help kids in their community: Prevention Education, Peer Programs, and Behavioral Health. The programs are provided in-person and online which provide Early Intervention and Peer Support. **Sarah** added that they receive referrals from Lake Havasu and Kingman school districts but also from the Mohave County Juvenile Probation Department.
- **Wendy** stated that the programs are successful and have produced positive results including expanded services within Kingman and Lake Havasu, building relationships with the Mohave County Public Health Department, and with the Arizona Youth Partnership (YAP). **Sarah** discussed that they utilize skilled based [i]nspire Support Groups to build resiliency, and are trauma-informed to create a safe environment. The organization also offers this program through the [i]nspire app to facilitate in-person or virtual groups. Some of the features of the app include gamification, podcasts, a fitness tracker, and a Self-Guided and Peer Guided Curriculum.
- **Wendy** shared a story about a letter that was received by a youth that stated because of the programs provided by notMYkid, they were inspired to turn their life around and get their G.E.D. The youth also thanked the program for taking the time to talk to kids in detention.
- **Ms. Nannetti, Chair** asked if there were any questions and **Ms. Tracy Darmody, Vice Chair**, stated that there was a question in the chat feature, which asked if the program would be an option within the group home industry. With multiple kids using drugs living under the same roof, what would this program look like with 5-10 kids living together. **Sarah and Wendy** replied that they will reach out to the programs that have shelters to provide more information.

- o **Ms. Tracy Darmody, Vice Chair**, asked if notMYkid works with any of the native communities/children around that area. **Sarah** responded that they are working on building staff capacity to begin assessing the needs of the community. **Wendy** stated that she does outreach in rural communities and specifically Peach Springs, and **Sarah** added that they are working to expand services.
- o **Mr. Jose Gonzales** stated that the organization is doing some great work, then asked if they provide any support for substance abuse, especially in Phoenix. He said that there are youth using substances in group homes and on the streets, and asked if the program does anything to address that. **Sarah** relayed that the program is based in Phoenix and Mohave County is another area they are focused on as that is where the need was. She said that outside of the program, notMYkid is doing a lot for the youth in the Phoenix metropolitan community, particularly around fentanyl.
- o **Ms. Nannetti, Chair**, asked where the program obtained the statistic on 1 in 10 high-school students have attempted suicide. **Sarah** replied that she would double-check and believed it was the Centers for Disease Control and Prevention (CDC).
- o **Ms. Nannetti, Chair**, asked if there were other questions, and thanked them for their dedicated work.

- **Ms. Noriega** stated that during her time as the Compliance Monitor, she was able to conduct inspections to law enforcement agencies across Arizona, expressing her gratitude to the law enforcement agencies that accommodated her visits. **Ms. Noriega** additionally thanked **Director Doug Sargent** and **Assistant Director Peter Luszczak** from the Arizona Department of Juvenile Corrections (ADJC) for hosting her back in 2022.

- **Ms. Noriega** continued her overview of the compliance monitoring efforts in the state and what is projected to be another successful year. The efforts that were made last year were also successful, and said that she was able to decrease the number of non-reporting agencies in the state.
