The Pathway of Collective Impact for Child Safety and Well-Being

Family Navigation Action Team:
helps families achieve their safety and self-sustainability goals by supporting self-advocacy, education, and access to needed supports.

Home Visitation Action Team:
works to increase availability of and access to evidence-informed home visitation programs resulting in improved maternal, child, and family health and well-being.

Family Navigation Action Team:

helps families achieve their safety and self-sustainability goals by supporting self-advocacy, education, and access to needed supports.

Strong Family Tool

Increase family protective factors by improving collaboration among resource providers AND ensuring families own their own support services, encouraging help-seeking behavior

ChatBot

Develop a text- and web-based digital tool that connects service providers and their resources to families that need them in plain, accessible language.
